

# Combination Waterers

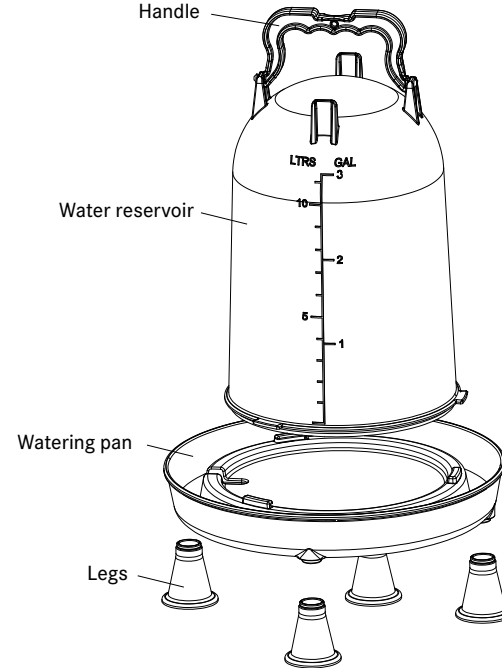

#540012 - 0.8 gal

#540013 - 1.6 gal

#540014 - 3.2 gal

1. Push legs onto bottom of the watering pan (Note: the 0.8 gallon waterer #540012 does not come with legs.) Top of each legs fits onto a “bump” on the bottom of the pan. If needed, turn base right-side up and use your fist to hammer base onto legs.
2. Place water reservoir upside down so the top (side with the handle) is on the ground. Fill with water.
3. Place watering pan onto reservoir. Twist to lock the dish onto the reservoir.

If you choose not to use the legs—the waterer can be used as a hanging waterer supported by the handle. Simply hang from the small hole in the middle.
