Inserting Tags with Premier's Brass Tag Applicator

*Tag placement in
brass tag applicator.*

Tag placement is critical to success!

Tags, especially tags for sheep, must be installed no more than 2 inches from the skull and near the center of the ear.

The opposite extreme (installing too far from the skull) will result in more lost tags as the tissue on the tip of the ear is tender and tears easily.

Be careful to avoid the large vein.
