

# Temporary Reel-Based Fences

## To install

**Tools:** None with existing fences as end posts. A hammer to drive FiberRods into harder soils.

**Time:** 1000 ft in 30 minutes in easy conditions with existing fences as end posts. However, fencing around/through brush and trees takes more time as do ends/curves/corner posts.

**Skill:** No cattle fence is easier and quicker to install and remove.

## Fence diagram

Product Name	Item	Price
A. 6-Light Fence Tester, 0.2 lb	#134100	\$15.00
B. Surge Protector, 0.8 lb	#156500	\$10.00
