

Premier PolyChain Instructions

This package includes:

- Plastic chain
- Aluminum snap clip
- Breakaway plastic clip

Premier's plastic chain can be cut to the length required.

Connect the plastic chain together using the breakaway plastic clip for safety or the aluminum clip for strength and ease of use. A combination of both is the best of both worlds. Premier's new fully customizable NeckTags go together perfectly with this chain for naming goats, lambs, dogs or other animals.
