

# How to secure heat lamps...

Because fire is a potential risk with all heat lamps, take note of methods below:

***Always keep lamp at least 20" away from the bedding. And don't enclose the lamp in a barrel or wooden box. The heat needs to be able to escape upwards!***

"How to secure a Heat Lamp."

## 1. Heat Lamp Clip

Fast, simple way to hang our heat lamps. Will fit 3/8" rods and smaller.  
3"L x 1.5"W.

Heat Lamp Clip, 0.10 lb.....#557040    \$0.79

2. Thread the power cord through the panel. (see at left) This means the power cord becomes a "backup" support if the clip should fail.

## 3. Braided Cord (for orange lamp only)

Use to secure the orange heat lamp (along with clip, sold above). The orange lamp needs more security.

Soft. Durable. Easy to tie.  
3/16" dia. 8 ft long.

Braided Cord, 0.10 lb.....#965410    \$1.00

800-282-6631
