

Instructions for Comb Lifter # 862700

1. Remove comb screws from the shear head.

2. Place flat side of comb lifter onto shear head. The pointed side of the comb lifter should face the front of the shear head.

3. Reinsert screws through the comb lifter and into shear head.

4. Insert comb between comb lifter and shear head. Apply comb and cutter per **"Tips to fit comb & cutter to shear head instructions."**
