To install

Tools: None if existing fences act as end posts. A hammer may be necessary to drive FiberRod posts into harder soils.

Time: 1000 ft in 30 minutes in easy conditions with existing fences as end posts. Fencing around/through brush and trees takes more time as do ends, curves and corner posts.

Skill: Minimal. Set the posts; string rope/twine; attach a suitable energizer.

Fence diagram

Product Name	Item
A. 5-Light Fence Tester, 0.24 lb	#134100
B. Surge Protector, 0.20 lb	#156500
C. Warning Sign, 0.06 lb	#346000
