

Grippler Torq Tensioning Tool

The new improved Grippler Torq Tensioning Tool not only tensions wire but regulates the load applied too, delivering consistent results every time and maximising the life of the wire.

ADVANTAGES

- The Grippler Torq Tensioning Tool allows you to tension wire up to 880lbs with minimal effort due to the 6:1 gear drive mechanism.
- Whether tensioning fence wire, trellis wire or wire rope for anchoring systems, the Grippler Torq Tensioning Tool will work on all Grippler units up to a 6mm diameter.
- The integral torque gauge controls the load applied to the wire, giving consistent tension every time and optimising the life of the wire.
- Measure from 220lbs to 660lbs.
- Easy to use and lightweight for repetitive tensioning.

INSTRUCTIONS

- Simply rotate the dial to the required tension.
- Open the tool handles fully.
- Locate the mouthpiece onto the Grippler unit and grip the wire with the cam.
- Squeeze the handles together to start tensioning the wire.
- Repeat until the required tension is reached.
- When the wire has achieved the desired tension, the tool will 'click' and the right handle grip displace slightly, to indicate tension achieved.

SPECIFICATION

Product	Starter Pack	Tool Deal
Grippler Plus SMALL	60 Small + Torq Tool	300 Small + Torq Tool
Grippler Plus MEDIUM	50 Medium + Torq Tool	250 Medium + Torq Tool
Grippler Plus LARGE	30 Large + Torq Tool	150 Large + Torq Tool
Grippler GP1	50 GP1 + Torq Tool	200 GP1 + Torq Tool
Grippler Barbed	30 Barbed + Torq Tool	200 Barbed + Torq Tool
Grippler Jumbo	30 Jumbo + Torq Tool	120 Jumbo + Torq Tool

TIPS

- As with any tool, good care will extend the Grippler Torq Tool's life.
- Regularly lubricate the cam area for smooth operation.
- Replacement cam sets are available should the teeth wear.
