

MotherUp[®]

MotherUp is a spray made with Natural Plant Oils which aids in helping foster mothers accept young orphan calves, colts, goats, and lambs.

Contains NO animal by-products.

DIRECTIONS:

- 1) Restrain the foster mother in a "squeeze chute" for safety while applying MotherUp. Avoid contact with the eyes. Extreme caution should be used in case the foster mother does not like the flavor and accidental contact with the eyes may result. Animals generally like the flavor of MotherUp and will lick and enjoy the application.
- 2) **Shake bottle well before using.**
- 3) Cover foster mother's eyes with hand and generously apply MotherUp directly on the nose and mouth.
- 4) Cover orphan's eyes with hand and generously apply MotherUp on the back and head.
- 5) After application of MotherUp to the foster mother and orphan, allow the orphan to nurse for the first time while the foster mother is restrained in the "squeeze chute." One application will generally work. May need to repeat process 12 hours later.

INGREDIENTS: Contains Purified Water, Natural Plant Oils, Polysorbate 80

USE ONLY AS INTENDED. AVOID CONTACT TO THE EYES.

NOT FOR HUMAN CONSUMPTION.

STORAGE:

If possible keep at room temp. If frozen, allow to thaw before using. Product will not be harmed if it freezes.
