TIP

If you use tags in your breeding flock, it's wise to install a tag in both ears when they are baby lambs.

Why? Because tag wounds in lambs heal quickly with less infection risk than tag wounds in adult animals—and thus provides a pre-existing, clean, firm hole when a larger tag needs to be installed.

Tag Comparison Chart

Tag name	Size	*Imprinted each	# per package	# of colors	Scrapie approved	Imprint area	Applicator
Qwik Tag	1.5" x 0.38"	30¢	20	9	no	9 characters/1 line	Qwik Tag
