

NetGate 3.0

#340501 & #340601

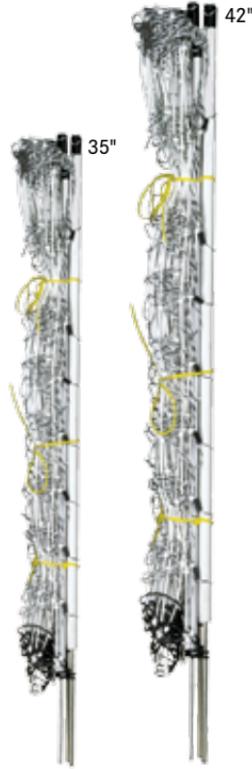

www.premier1supplies.com • 800-282-6631

© Copyright 2016, Premier1Supplies. All rights reserved.

Consists of 20 ft of net,
2 end posts (1 in. diameter
PVC posts) and a smaller
center post.

Used throughout our
farms. Quickly installs
and is easy to use.

Just clip a PowerLink
(sold separately and at
right) to an existing
“hot” wire to add or
remove “power” to
the gate.

NetGates are lightweight and easy to move. We use PowerLinks to connect NetGates to an electrified strand.

*Never use electric gates
where animals will crowd
against them. Use steel/
wood gates if this will occur.*
