

Instructions for Replacement Handle on the Net Gates

Note: Do not place black cap on the handle until you have placed on post. Very hard to get back off.

1. Remove the brown cap from the top of the post (pliers may be needed). Take off old handle and slide new handle into place.

2. Replace the brown post cap at the top of the gate post.

3. Slide the handle black cap into place at the top of the handle.

4. Assembled handle with cap snapped into place.
