

Horned Milking Stand Headpiece & Tray Instructions

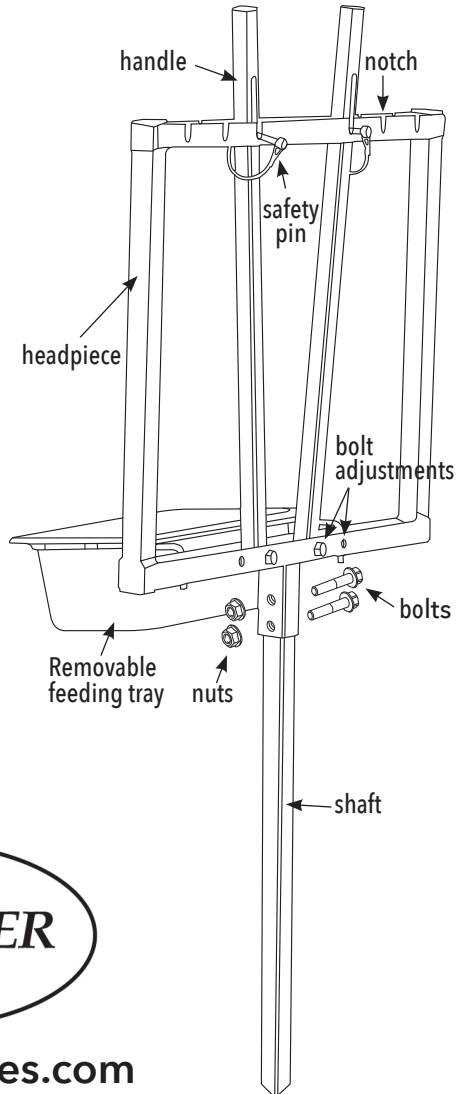

#819621

ASSEMBLY

1. Place headpiece over shaft.
2. Line up the holes of the headpiece with those of the shaft.
3. Insert bolts.
4. Thread nuts onto bolts and tighten.

ADJUSTMENTS

1. Remove one or more of the safety pins at the top of the headpiece that hold the handles in place.
2. Insert the animal's head through the opening and close handles.
3. Replace pins.
4. Notches at the top of the headpiece allow for varied placement of the safety pins, dependent on the width of the animal's neck/horns.
5. Handle placement may be adjusted by removing the bolts at their base and switching the connection points.
