

Kid Finisher Trace Mineral Premix

GOLD FORMULA

A fortified trace mineral premix for starter, grower & finisher goat kids.

Guaranteed Analysis

Calcium (Ca), minimum..... 28.00%
 Calcium (Ca), maximum..... 34.00%
 Sulfur (S), minimum..... 3.4%
 Cobalt (Co), minimum..... 85 ppm
 Selenium (Se), minimum 130 ppm
 Iron (Fe), minimum..... 650 ppm

Iodine (I), minimum 800 ppm
 Copper (Cu), minimum 10,000 ppm
 Copper (Cu), maximum..... 12,000 ppm
 Manganese (Mn), minimum 16,000 ppm
 Zinc(Zn), minimum..... 40,000 ppm

Ingredients

Calcium Carbonate, Zinc Sulfate, Manganese Sulfate, Copper Sulfate, Mineral Oil, Ethylenediamine Dihydriodide, Sodium Selenite, Ferrous Sulfate, Cobalt Sulfate.

Sample Rations using 5 lbs of Kid Finisher Trace Mineral Premix:

Creep/Starter Ration

19% (as fed) crude protein for goat kids under 30 lbs

Cracked Corn..... 1366 lbs
 Soybean Meal (46) 580 lbs
 Salt 10 lbs
 Calcium Carbonate (780233) 30 lbs
 ADE Premix (780234) 2 lbs
 Ammonium Chloride (780030)..... 5 lbs
 Deccox (780021) 2 lbs
 Goat Kid Finisher Premix (780300)..... 5 lbs

Grower Ration

15% (as fed) crude protein for goat kids 30–60 lbs

Cracked Corn..... 1574 lbs
 Soybean Meal (46) 367 lbs
 Salt 10 lbs
 Calcium Carbonate (780233) 30 lbs
 ADE Premix (780234) 2 lbs
 Ammonium Chloride (780030)..... 10 lbs
 Deccox (780021) 2 lbs
 Goat Kid Finisher Premix (780300)..... 5 lbs

Finisher Ration

12% (as fed) crude protein for goat kids over 60 lbs

Cracked Corn..... 1641 lbs
 Soybean Meal (46) 300 lbs
 Salt 10 lbs
 Calcium Carbonate (780233) 30 lbs
 ADE Premix (780234) 2 lbs
 Ammonium Chloride (780030)..... 10 lbs
 Deccox (780021) 2 lbs
 Goat Kid Finisher Premix (780300)..... 5 lbs

*** For All 3 Rations:** If the ration is too dusty one can add molasses at 5% of the ration or vegetable oil at 2% of the ration in place of corn. One can also spray up to 5 gallons of water into the mixer while mixing.

*** For Starter Ration:** Feed high quality hay in the creep feeder to help attract goat kids to the feeder.

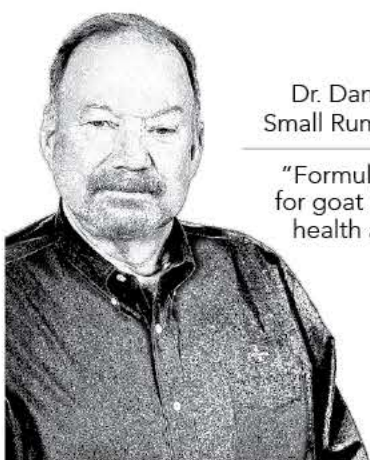

*** For Grower & Finisher Ration:** Limit long stem hay feeding at 5–15% of the goat kid's intake will help with rumen acidosis. This will amount to .2 to .5 pounds per day. Excess hay feeding will reduce goat kid performance and self-fed large hay packages are discouraged as intake cannot be regulated.

Directions For Use

Mix thoroughly the Kid Finisher Trace Mineral Premix, ADE Premix, Ammonium Chloride & Deccox with 20–30 lbs of cracked corn. Then add to the remaining ton of goat kid feed. This product is formulated to help with hoof integrity with very high levels of zinc and iodine to promote stronger, healthier hooves. Hoof growth is a long term process so benefits may not be seen for several months of continuous feeding of this trace mineral premix. Provide a source of fresh, clean water.

Caution: Including more than 5 pounds of this trace mineral premix per ton of feed will exceed the allowable FDA intake levels of .69mg of selenium per head per day.

WARNING: CONTAINS HIGH LEVELS OF COPPER. DO NOT FEED TO SHEEP.

Dr. Dan Morrical, Ph.D.
Small Ruminant Nutritionist

"Formulated specifically for goat kids to maximize health and immunity."
