

Lamb Finisher Trace Mineral Premix

GOLD FORMULA

A fortified trace mineral premix for starter, grower & finisher lambs.

Guaranteed Analysis

Calcium (Ca), minimum.....29.00%
 Calcium (Ca), maximum.....34.00%
 Sulfur (S), minimum.....2.9%
 Copper (Cu), minimum.....0 ppm
 Copper (Cu), maximum.....9 ppm
 Cobalt (Co), minimum.....85 ppm

Molybdenum (Mo), minimum.....200 ppm
 Selenium (Se), minimum.....130 ppm
 Iron (Fe), minimum.....650 ppm
 Iodine (I), minimum.....800 ppm
 Manganese (Mn), minimum.....16,000 ppm
 Zinc (Zn), minimum.....40,000 ppm

Ingredients

Calcium Carbonate, Zinc Sulfate, Manganese Sulfate, Sodium Molybdate, Mineral Oil, Ethylenediamine Dihydriodide, Sodium Selenite, Ferrous Sulfate, Cobalt Sulfate.

Sample Rations using 5 lbs. of Lamb Finisher Trace Mineral Premix:

Creep/Starter Ration

19% (as fed) crude protein for lambs under 60 lbs

Cracked Corn.....1306 lbs
 Soybean Meal (46).....635 lbs
 Salt.....10 lbs
 Calcium Carbonate (780233).....30 lbs
 ADE Premix (780234).....2 lbs
 Ammonium Chloride (780030).....10 lbs
 Deccox (780021).....2 lbs
 Lamb Finisher Premix (780230).....5 lbs

Grower Ration

15% (as fed) crude protein for lambs 60–100 lbs

Cracked Corn.....1491 lbs
 Soybean Meal (46).....450 lbs
 Salt.....10 lbs
 Calcium Carbonate (780233).....30 lbs
 ADE Premix (780234).....2 lbs
 Ammonium Chloride (780030).....10 lbs
 Deccox (780021).....2 lbs
 Lamb Finisher Premix (780230).....5 lbs

Finisher Ration

12% (as fed) Crude Protein for lambs over 100 lbs

Cracked Corn.....1641 lbs
 Soybean Meal (46).....300 lbs
 Salt.....10 lbs
 Calcium Carbonate (780233).....30 lbs
 ADE Premix (780234).....2 lbs
 Ammonium Chloride (780030).....10 lbs
 Deccox (780021).....2 lbs
 Lamb Finisher Premix (780230).....5 lbs

* **For All 3 Rations:** If the ration is too dusty one can add molasses at 5% of the ration or vegetable oil at 2% of the ration in place of corn. One can also spray up to 5 gallons of water into the mixer while mixing.

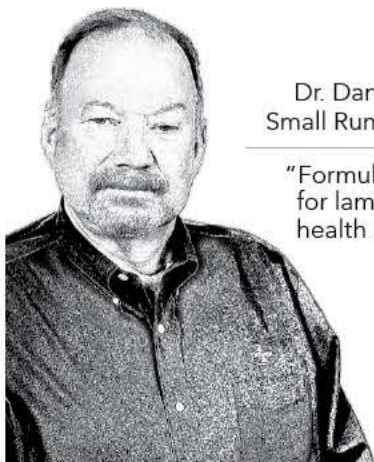

* **For Starter Ration:** Feed high quality hay in the creep feeder to help attract lambs to the feeder.

* **For Finisher & Grower Ration:** Limit long stem hay feeding at 5–15% of the lamb's intake will help with rumen acidosis. This will amount to .2 to .5 pounds per day. Excess hay feeding will reduce lamb performance and self-fed large hay packages are discouraged as intake cannot be regulated.

Directions For Use

Mix thoroughly the Lamb Finisher Trace Mineral Premix, ADE Premix, Ammonium Chloride & Deccox with 20–30 lbs of cracked corn. Then add to the remaining ton of lamb feed. This product is formulated to help with hoof integrity with very high levels of zinc and iodine to promote stronger, healthier hooves. Hoof growth is a long term process so benefits may not be seen for several months of continuous feeding of this trace mineral premix. Provide a source of fresh, clean water.

Caution: Including more than 5 pounds of this trace mineral premix per ton of feed will exceed the allowable FDA intake levels of .69mg of selenium per head per day.

Dr. Dan Morrical, Ph.D
 Small Ruminant Nutritionist

"Formulated specifically for lambs to maximize health and immunity."
